To whom it may concern

I am pleased to write this letter of support on behalf of Mr Prashant Srivastava of East-West Human Resources Inc. (EWHR)

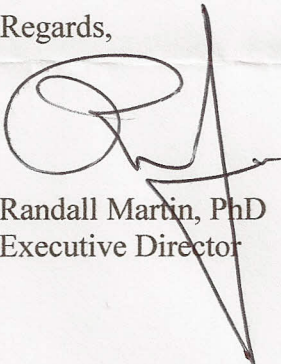

We have worked with Mr Srivastava in a professional capacity for the last three years, while he has been actively involved in furthering educational relationships between British Columbia and India, and most recently almost exclusively on behalf of Vancouver Island University.

Mr Srivastava and his firm have overseen the recruitment and visa processing of substantial numbers of qualified students from India to enrol in British Columbia's post secondary educational institutions, and in so doing, he has helped promote British Columbia and Canada as a destination of choice for higher education and contributed to the economic prosperity of the Province.

Mr Srivastava exhibits a deep understanding of both Indian education systems as well as the various provincial Canadian education systems, and his contacts with Indian Educators were helpful in the execution and planning of the Team B.C. Education mission to India in 2007.

We wish Mr Srivastava and EWHR every success in their ventures and will continue to look forward to working with them. I am comfortable in recommending EWHR to other institutions, districts and jurisdictions as they pursue an expansion of activities across Canada.

Regards,

Randall Martin, PhD
Executive Director
